

Water Issues in Golf Course Management in Scotland

By Carolyn Hedley, Project Manager, Scottish Golf Environment Group

Thursday 15th November 2007, 18.00 for 18:30 hrs

Venue: Teacher Building, St Enoch Square, Glasgow

This event can be considered for contributing to a recognised Continuing Professional Development (CPD) scheme. The CIWEM CPD scheme has an average requirement of 30 hours per year. Attendance certificates can be provided on request.

Speaker:

Carolyn Headley is Project Manager with the Scottish Golf Environment Group. Carolyn began her career as a Civil and Environmental engineer for Scottish Water. Following completion of an MSc in Environmental Management and gaining experience in Environmental Planning and Environmental Impact Assessment, she joined the golf sector in May 2005.

Carolyn manages this national initiative aimed at bringing together the golfing and environmental sectors in Scotland. Through advisory visits to golf facilities in Scotland, they focus on biodiversity, woodland, gorse and grassland management and routinely include the delivery of best practice advice on issues such as sustainable drainage and water use, waste management, energy conservation, climate change, landscape, archaeology and all-round environmental best practice. SGEG contribute to sustainable tourism initiatives in Scotland and are the co-ordinators of the Scottish Awards for Environmental Excellence on Golf Courses which are recognised by Golf Environment Europe.

Background:

Carolyn will be discussing the issues facing the golf sector regarding water conservation, water use efficiency and waste and surface water management and the challenges that the Golf Sector is facing.
