

## Technical Visit to Foshan Gaoming Chanjiang Eco-Industrial Park on 10 March 2007

The visit was jointly organized with the HKIE Civil Division. The delegation was warmly received by the senior officials of The People's Government of Gaoming District Foshan Municipality, Foshan Urban Planning Bureau, Environmental Protection Bureau; and some enterprises stationed in the park.

The visit started with a formal briefing on the missions and planning objectives of the Eco-Industrial Park, its development strategies, some major infrastructures and enterprises; and the key achievements in the past few years and its challenges ahead. Due to its outstanding management and environmental measures, the Park was granted "國家火炬計劃新材料產業基地" and "實施火炬計劃十五週年先進火炬計劃特色產業基地" awards; and accredited under the ISO14001, ISO901 and OHSAS in 2003 to 2005 respectively. The subsequent discussion went over various issues including civil works implementation, management approach, environmental mitigating measures, training and education policy, etc. The delegation then visited the production processes of the Foshan Electrical & Lighting Co., Ltd., Hai Tian Soy Sauce Park; the physical model of the Gaoming Eco-Industrial Park; and the First Municipal Sewage Treatment Works which treated and disposed of 50,000 cu m/day of domestic sewage.

Visit to the First Municipal Sewage Treatment Work
