MEETING OF SOUTH EASTERN BRANCH

Date: Tuesday January 15 2008
Venue: 7th Floor, Charter House, Park Street, Ashford, Kent, TN24 8EX
Time: 18.00 for 18.30
Subject: Environmental Footprinting

Ashford's Future is a partnership of local councils, government agencies and others from the public and private sector. They are responsible for delivering regeneration throughout the borough and ensuring the town develops and grows in a sustainable way.

Ashford's Future has commissioned a study into the Ecological Footprint of the town and the impact of the growth plans. Ecological Footprinting is one way to measure the environmental impact of our lifestyle, calculating how much productive land and sea is needed to feed us and provide all the energy, water and materials we use in our everyday lives.

Ashford is the only growth area in the country currently assessing its Ecological Footprint, both now and in the future as the town develops. The study, funded by English Partnerships and the World Wildlife Fund, is being carried out by Stockholm Environment Institute, and the final results are expected in February.

Laurienne Tibbles, Sustainable Development Manager at Ashford's Future, will explain the project and how this will affect future growth in the town.
