### **MEETING OF SOUTH EASTERN BRANCH**

**Date:** Tuesday 11 September 2007  
**Venue:** Visit to Shopham Loop, near Petworth, West Sussex  
**Time:** 1600hrs  
**Subject:** Shopham Loop Restoration Project

Environment Agency staff, Mark Smith (Resident Engineer for the project) and Charlotte Murray (Technical Specialist, Fisheries, Recreation and Biodiversity), will lead a site visit to the Shopham Loop River Restoration Project. This is one of the largest river restoration projects completed in the south east. It is a multi-benefit demonstration project to manage topsoil runoff, river siltation, ecological decline and flooding problems in the River Rother, and was completed in 2004. The Environment Agency team who delivered the project will walk you around the site to explain the project, the lessons learned in undertaking a river restoration project and highlight the environment benefits.

The site visit will take between 1½ to 2 hours. Walking boots or wellies, and sensible clothing for the weather conditions will be required.

We will meet at Coultershaw Mill (close to Coultershaw Beam Pump, track down the side), near Petworth from 3:45pm. NGR SU 972 193

.....

If you wish to attend please reply using this strip ASAP, by the latest 4 September 2007 to: Steve Mitchell, Hon Branch Treasurer, 2 Ferrers Road, Lewes BN7 1PZ (tel: 07751 609837).
