MEETING OF SOUTH EASTERN BRANCH

Date: Wednesday, 2nd July 2008
Venue: Wichling Water Treatment Works, Doddington, Kent
Time: 1400
Subject: Site Visit to Wichling Water Treatment Works, Doddington, Kent

South East Water have recently completed a £4.0m water quality improvement scheme at Wichling water treatment works as part of its £384m capital investment programme for AMP4. The aim of the project was to reduce turbidity levels in the treated water, which originates from the chalk boreholes close to the site. Joe Yip of South East Water will discuss the background to the project including the pilot plant trials which were undertaken to prove the most effective turbidity removal method. A speaker from Pall Europe Limited will then describe the operation of the microfiltration membrane plant that was installed.

The talk will be followed by a short tour of the site to see the new plant in operation. Attendees will need to bring a high visibility jacket/vest, a hard hat and safety shoes/boots. Due to space restrictions, there will be a limit of 20 visitors for this event.

.....

If you wish to attend please reply using this strip ASAP and by the latest 25th June 2008 to: Steve Mitchell, Hon Branch Treasurer, 2 Ferrers Road, Lewes BN7 1PZ (Phone: 07751 609837 or email Sbmitch1@gmail.com). Please also give your phone contact and Email address in case of late changes to the meeting. If you need a map please state and include your fax number, or, preferably, your E mail address.

I wish to attend the 2nd July site visit and will be accompanied by guests.
