

# FREE PEM+ South West Launch

## (Practical Environmental Management+)

Discover how a practical approach to environmental management can benefit your company & boost profit.

### When & Where?

Tuesday 26th September 2006  
National Marine Aquarium, Plymouth  
19.00 until 21.30

**Be inspired and become one of the first companies in the region to establish themselves in the field of increasingly environmentally aware customers. Learn how Environmental management can give your company the competitive edge & boost your bottom line**

### Why should you attend the launch event?

- Discover how your company can benefit from implementing an Environmental Management System (EMS).
- Learn how to manage your environmental risk.
- Find out how training your staff can ease the implementation process.
- Realise how you can improve your own knowledge and skills in environmental management.
- Network with other businesses to share experiences and gain ideas.

If you are a manager or familiar with dealing with health, safety or quality and haven't much experience in the environment then this launch event is ideal to find out what support is available.

### What is Practical Environmental Management+ ?

PEM+ is a training course which offers accredited training as well as the chance to implement an EMS. The course is certified by the Chartered Institution of Water and Environmental Management (CIWEM) and is sponsored by Barclays.

Delegates use their own workplace as part of a practical project to work towards accreditation at Phase 3 of the BS 8555 Environmental Management System and continue to ISO 14001 accreditation, if required.

BS 8555 offers a more manageable approach to implementing an EMS. Business benefits include resource efficiency, legal compliance, risk reduction, ability to meet customer pressures and general cost savings.

Supported by:

CIWEM  
The Chartered Institution of Water  
and Environmental Management

envision  
where environment means business

iema  
Institute of Environmental  
Management & Assessment
