The Landscape of Change

GUNPOWDER PARK
ART / SCIENCE / NATURE

Gunpowder Park

**90 hectares of regenerated green space within the Lee Valley Regional Park,
for the benefit of people, wildlife and the arts.**

**A beacon for arts and environment,
offering creative practitioners unprecedented conceptual and physical freedom
to create new work with regional and international significance.**

**Now recognised as a physical and virtual focal point for
exploration, innovation, communication and collaboration.**

Landscape+Arts Network Services, in partnership with Lee Valley Regional Park Authority.

VISIONING STRATEGY RESEARCH & DEVELOPMENT DELIVERY

Our working practice positions arts and culture as the conduit to inform policy and support the implementation of capital development.

Developing and maintaining partnerships with local and national government agencies, creative individuals and organisations, private and public sector organisations and communities is crucial to our practice.

CONNECT addresses the challenge of an integrated management process that delivers within complex social strands that constitute our public realm.

Working with public and private sector partners, CONNECT helps to develop a collaborative, creative-led, interdisciplinary team approach to achieve sustainable solutions for public realm developments.

Green Heart Partnership

Green Heart is a partnership initiative between Arts Council England, East and all the local authorities in Hertfordshire that aims to achieve growth and capacity between the arts and environment sectors.

We position artists to instigate critical and creative thinking within interdisciplinary teams of local authority officers.

GHP has developed an innovative approach to arts-led regeneration by placing artists at the heart of the community where they can capture the perceptions of local people.

GUNPOWDER PARK ART / SCIENCE / NATURE

Green Heart Partnership

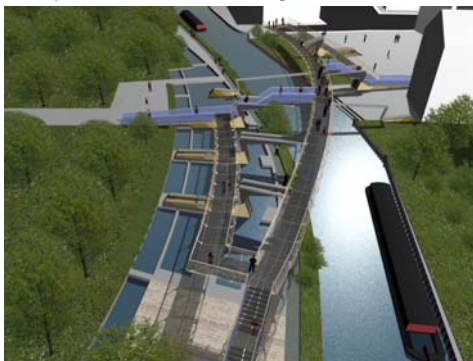

Facilitating creative collaborations that deliver regeneration solutions through creative-led, interdisciplinary teams that are informed through the arts.

GHP identifies the artist as a 'maker of change' and the rest of the team as co-makers.
