

# Green Spaces and Sustainable Parks Management

Bob Ivison

## The Big Issue

- climate change
- what is happening?
- research
- global impact
- empiric evidence

## weather changes

- how will the weather change?
- what will the effects be?
- if it is so by why aren't we changing?
- barriers to sustainability
- Stern Review

## what part can parks play?

- what is sustainable management?
- top down or bottom up?
- inter-Governmental
- National Government
- Institutions
- global business
- Regional Government
- Local Government

## parks services

- management plans
- mitigation against the effects
- good parks management plans

## management plans

- national, regional and local strategies
- community management
- environmental management
- resource management
- monitoring
- review

## management plans

- staffing implications
- carbon footprint
- procurement
- knowledge sharing
- standards

## a changing landscape

- new thoughts
- how do we do it?

thank you
