

# THE RIVERS AND COASTAL GROUP

## A CIWEM SPECIAL INTEREST GROUP

CIWEM has a structure of Special Interest Groups which act as the focus for members' particular professional interests. A key role for Groups is the provision of Technical advice and policy development for the Institution.

The Rivers and Coastal Group is one of the CIWEM Groups which is active in a number of areas in addition to those mentioned above. Run by members for members, Group activities include an annual programme of meetings, visits and events. These provide an opportunity for members to meet colleagues in their own discipline and keep informed of the latest developments in the industry.

The Rivers and Coastal Group has nearly 600 members drawn from consultants, the Environment Agency (and its home country counterparts) contractors, academia and local authorities.

New Group members are always welcome and, as a CIWEM member, you can join the Group at no extra cost. Just provide the relevant details and send them to the Honorary Secretary at the address below.
