

**The CHARTERED INSTITUTION of WATER
and ENVIRONMENTAL MANAGEMENT**

Wastewater Management Panel

TERMS of REFERENCE

1. The Wastewater Treatment and Sludge Disposal Panel was set up by the Management and Finance Committee under Article 73(i). The Panel's title was changed to the "Wastewater Management Panel" by approval of the Technical Committee on 10 September 1996.
2. Wastewater management is defined as the collection (excluding the fabric of the infrastructure) and treatment of municipal and industrial waste water, and the treatment and disposal or use of the products of these processes, in accordance with environmental standards.
3. The terms of reference of the Wastewater Management Panel are:
 - a) To provide a focal point within the Institution for expertise in the field of wastewater management.
 - b) To keep development in the field of wastewater management under review and to provide technical advice to CIWEM's Council.
 - c) To identify developing topics and to anticipate requests to CIWEM for comments, in relation to wastewater management. To prepare Position Papers and up-date them when necessary.
 - d) To assist Council to respond in a competent and authoritative manner to requests from government departments and other bodies for evidence in response to consultation papers and enquiries. To identify consultation papers in advance and assist CIWEM in planning responses which may involve several technical panels.
 - e) To identify topics within the areas of wastewater management which would be appropriate subjects for conferences, symposia, publications, and education and training activities.
 - f) To identify and utilise the expertise of other members of CIWEM in the area of Wastewater management as necessary.
 - g) To promote the Institution's interests in this field with other organisations.
 - h) To liaise with other CIWEM Subject Panels in areas of common interest.

Revised June 2003
