

## Registration as an Engineer via CIWEM

Registration with the Engineering Council is open to anyone who can demonstrate the required professional competences and commitment. These are set out in UK-SPEC, and are developed through education and working experience. Should you wish to register, your eligibility will be considered by the Engineering Professional Board (EPB) at the same time as your application for Chartered or Associate membership is being processed.

The process will be more straightforward if you hold the exemplifying qualifications for registration with the Engineering Council. However you can still register with the Engineering Council, if you do not have these academic qualifications. Further information about the assessment process for non-exemplifying qualifications can be found [here](#).

**BEFORE APPLYING FOR REGISTRATION AS AN ENGINEER PLEASE READ THE FULL REQUIREMENTS WHICH CAN BE FOUND [HERE](#)**

**CEng**

**Experience**  
Chartered Engineers develop appropriate solutions to engineering problems. They may develop and apply new technologies, promote advanced designs and design methods and introduce new and more efficient production techniques, or pioneer new engineering services and management methods. The title CEng is protected by civil law and is one of the most recognisable international engineering qualifications

**Exemplifying Qualifications**  
an accredited Bachelors degree with honours in engineering or technology, plus either an appropriate Masters degree or Engineering Doctorate (EngD) accredited by a professional engineering institution, or appropriate further learning to Masters level  
or an accredited integrated MEng degree

**IEng**

**Experience**  
Incorporated Engineers maintain and manage applications of current and developing technology, and may undertake engineering design, development, manufacture, construction and operation.

**Exemplifying qualifications:**  
an accredited Bachelors or honours degree in engineering or technology  
or an accredited HNC or HND in engineering or technology (for programmes started before Sept 1999)  
or an HNC or HND started after Sept 1999 (but before Sept 2010 in the case of the HNC) or a Foundation Degree in engineering or technology, plus appropriate further learning to degree level  
or an NVQ4 or SVQ4 which has been approved for the purpose by a licensed engineering institution, plus appropriate further learning to degree level\*.

A blue rectangular box with rounded corners. On the left side, the word "EngTech" is written vertically in white, bold, sans-serif font. To the right of the logo, there are two sections of text in white. The first section is titled "Experience:" and describes the role of EngTechs. The second section is titled "Exemplifying Qualifications:" and lists the educational requirements for registration.

**EngTech**

**Experience:**  
EngTechs solve practical engineering problems. They are professionals with supervisory or technical responsibility, and apply safe systems of working. They contribute to the design, development, manufacture, commissioning, decommissioning, operation or maintenance of products, equipment, processes or services

**Exemplifying Qualifications:**  
a qualification, approved by a licensed professional engineering institution, in engineering or construction set at level 3 (or above) in the Qualifications and Credit Framework/National Qualifications Framework for England and Northern Ireland; or at level 6 (or above) in the Scottish Credit and Qualifications Framework; or at level 3 (or above) in the Credit and Qualifications Framework for Wales;  
or equivalent qualifications approved by a licensed professional engineering institution
