

Registered Environmental Practitioner (REnvP) Mandatory Competence Attainment Report

Please provide a response to each of the REnvP Mandatory Competencies in the relevant section of the application form. The maximum number of words for the Mandatory Competence submission is 4000 words; the distribution between individual competencies is at your discretion to best demonstrate your experience. However, we recommend that you do not exceed 400 words on any response to ensure that you provide us with sufficient information to demonstrate the full breadth of experience required. Please give due consideration to all competencies in your submission; no competence can be left blank.

Also, please note that appendices, references and footnotes will not be accepted. You need to use examples from your own practical experience to demonstrate the appropriate level of achievement for each competence.

Further guidance on completing your report can be found in the Registered Environmental Practitioner (REnvP) Application Guidance document available [here](#).

Completed forms must be uploaded in the Supporting Documents section of the online application for MCIWEM.

We're with you every step of your application, if you have any questions call +44 (0)207 831 3110 or email membership@ciwem.org and someone will be delighted to help.
