FAST TRACK TO CHARTERSHIP

SUPPORTING YOU EVERY STEP OF THE WAY

Find out more about this course at www.ciwem.org/training
The Chartered Water and Environmental Manager qualification (C.WEM) is the ultimate demonstration of your skills and technical excellence in the field of water and environmental management. Professional registration provides the assurances sought by employers, clients, peers and the public that you will provide the highest of professional standards. C.WEM will expand the horizons and opportunities you have to participate in solving water and environmental challenges globally.

This one-day practical workshop will help you to accelerate the time it takes to gain C.WEM or other professional registrations that CIWEM offers. Our experienced trainers will share with you their extensive hands-on knowledge of the assessment process and technical expertise to support you in preparing an outstanding application for Chartership.

The workshop will:

- Guide you through the application process and highlight the key deadlines that you will need to meet
- Provide you with a clear understanding of what your career overview should contain
- Offer you the opportunity to have your career overview reviewed by an experienced assessor
- Provide you with clear guidance on how to complete the mandatory competencies (MCs)
- Enable you to spend some focused time completing your MCs with experienced assessors on hand to help you in the completion of your MCs through one-to-one surgeries
- Help you to prepare for your professional review interview (PRI)
- Give you personal access to an experienced assessor who will be contactable after attendance at the workshop to support you in the completion of your application.

Enrol online at www.ciwem.org/training
This workshop has been specifically designed for:

Professionals working towards a registration with CIWEM who:

- Require additional support with their application
- Need some focused time to complete their MCs
- Are looking for an accelerated route to gaining chartership.

It will also be of particular interest to those who should already be chartered but have never got around to completing their application.

To enrol you must meet the requirements to become a Chartered Member. See CIWEM website for further details.

This practical face-to-face workshop will be delivered by a group of experienced trainers and CIWEM assessors who are experts in the water, environment and engineering sectors.

Lunch and refreshments will be provided.

Full details of the course content can be downloaded here.

After attendance at the workshop you will be provided with the personal contact details of an experienced assessor who will be on hand to assist you in the completion of your application and will be independent from the formal assessment and review process.

For course dates visit www.ciwem.org/training
The course fee is £455 + UK VAT. This is inclusive of all assessment and membership application fees.

For details of where and when the course is taking place, please visit www.ciwem.org/training.

CIWEM is the leading international Royal Chartered professional body dedicated to the water and environment sector.

Our aim is to work towards a safer, more sustainable world. Our Mission is to build a global community of water and environmental professionals dedicated to working for the public benefit.

We represent and support a community of thousands of members and organisations in 89 countries. All our members are dedicated to improving water and environmental management as well as associated social and cultural issues, for the benefit of the public. CIWEM provides an extensive range of services leading the industry in developing technical excellence, which include: training courses; events featuring top level speakers, debate and networking; round table meetings driving thought leadership and policy development; publications; and independent policy position papers, guidance and codes of practice, all founded on impartiality and the use of scientific evidence. As an independent charity we champion professional standards, impartiality and the use of scientific evidence in the management of the environment. To join CIWEM visit www.ciwem.org/membership.
